Overview

GAVS Technologies (GAVS) is a global IT services & solutions provider for customers across multiple industry verticals. GAVS offers services and solutions aligned with strategic technology trends to enable enterprises to take advantage of futuristic technologies like Cloud, IoT, Managed Infrastructure Services, and Security services.

Benefits

- Improved endpoint security coverage

- Enhanced business assurance by ensuring confidentiality and availability of data

- Improved stakeholder confidence

- Augmented high-quality service driven by SLA

GAVS built a robust Endpoint Security solutions for one of the largest Business Consulting firm in US

Background

World's largest public relations firm, operating in 65 cities with over 5,000 employees, and affiliates across more than 35 cities.

The Need

- Augment the core security team and migrate more than 2,000 endpoints from older Symantec Endpoint Protection to the latest version

- Support Symantec Endpoint Protection migration including 1,000 unmanaged endpoints

- Address various compatibility issues related to specific applications

- Reduce the window of time in handling security incidents

GAVS' Solution

- Migrated all of the more than 2,000 endpoints manually and by using tool-based automation

- Fixed various non-compliance and migration issues using analytics

- Provided insights on the deployment process to resolve Symantec Endpoint reporting bugs

- Facilitated continuous monitoring of SLAs to ensure uninterrupted services availability to the users

- Analyzed and provided remediation for the endpoint risks
