Business Transformation led by New-age Solutions & Unique Partnership Model

Business Situation

A mission to deliver transformative solutions through its 80+ products powering real-results by:

- Optimizing supply chain
- Integrating pharmacy
- Maximizing value-based care

A strategic partner having experience in healthcare & transformative IT solutions was imperative to achieve the real-results and high-availability & performance for IT.

Solution

- A holistic framework – ‘ONE TEAM’ uniquely focused on ‘transforming healthcare together’ with Y-o-Y commitment across efficiency, cost & innovation/value-adds – leveraging shared values & digital/healthcare expertise
- Product engineering – involves development/re-engineering of some revenue-generating ERPs, supply chain & analytical platforms and other web-apps
- ZIF Command Center using GAVS’ AIOps platform for prediction, event correlation, 360° unified-view of the IT landscape, etc. enabling seamless IT operations
- VDI & Datacenter support focused on resilient, high-availability/performance IT leveraging ITIL best practices & shift left approach
- Product Intelligence Office with commitment to newer ideas & innovation
